

Cast your vote to
elect the first HUC President!

Tri Ratna Bajracharya

- Professor Emeritus, Tribhuvan University
- Affiliate Senior Research Fellow, GFZ Research Institute for Sustainability (RIFS), Potsdam, Germany
- Former Dean (2015-2019), Institute of Engineering - Pulchowk
- Past President (2019-2021), Nepal Engineers' Association

Thirty years of research on sustainable energy transition, renewable technologies, hydropower sustainability, and low-carbon transport solutions; engaged in strategy development at the nexus of energy policy, climate resilience, and socio-technical systems; focused on addressing energy challenges in Nepal and South Asia through the design and advocacy of equitable, climate-resilient energy pathways.

"I believe the role of the HUC President requires not only proven academic and leadership track records but also vision and pragmatic thinking to take the Consortium through its transformation."

"If I am entrusted with the task [of HUC President,] I commit to fostering inclusive debates, empowering young researchers, and enhancing the self-sufficiency and regional outreach of the Consortium."

Letter of Interest by the candidate

"Prof Bajracharya has made valuable contributions to the deliberation amongst the HUC leadership and to the strengthening of the Consortium's governance. With his insights on resource mobilization within and outside the region, he plays a leading role in outlining a feasible way for the Consortium to work toward financial self-reliance and eventually achieve sustainability."

Endorsement by Prof K. C. Khadga, Vice Chancellor, Tribhuvan University
